MANAGEMENT COMPANY: Algebris Investments (Ireland) Limited is authorised in Ireland and regulated by the CBI.

Authorised in: This PRIIP is authorised in Ireland

ISSUED ON: 14/06/2024

WHAT IS THIS PRODUCT?

Type: Algebris Global Credit Opportunities Fund (the "Fund") is a sub-fund of Algebris UCITS Funds PLC (the "UCITS"), a public limited company incorporated with limited liability in Ireland with registered number 509801 and established as an umbrella fund with segregated liability between sub-funds and as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. The Investment Manager of the Fund is Algebris (UK) Limited (the "Investment Manager"). Segregated liability between sub-funds means that the assets and liabilities of each sub-fund are segregated by Irish law. The prospectus and periodic reports are prepared for Algebris UCITS Funds plc at umbrella level.

Objectives: The Fund aims to achieve a high level of income diversifying across global bond and credit markets.

The Fund intends to invest primarily in the following asset classes: debt securities to include corporate or government bonds with fixed or variable interest, investment grade or below investment grade, mortgage-backed and other asset-backed securities, senior and subordinated financial debt, convertible securities (bonds that can be converted into shares), contingent convertible instruments (**CoCo-Bonds**) (bonds that can be converted into shares or their principal amount may be written down if a pre-specified trigger event occurs), hybrid securities (a security which combines both debt and equity characteristics), Tier 1 and upper and lower Tier 2 securities (which are forms of bank capital), and trust preferred securities (a type of hybrid security). Although the Fund will primarily invest in the asset classes listed above, it may also invest in certain other asset classes including equity and equity-related securities (including ordinary shares, common stock, preference shares, exchange traded notes (**ETNs**), global depositary receipts, American depositary receipts, warrants and rights), exchange traded funds (**ETFs**), commodity exposure and ancillary liquid assets (which may include bank deposits, certificates of deposit, commercial paper, money market funds and freely transferable promissory notes) in order to increase portfolio diversification and improve liquidity.

You can buy or sell shares daily (but not on weekends or bank holidays in the UK or Ireland). For more information please refer to the section entitled "Dealings in the Fund" in the Supplement.

The Fund may also enter into financial derivative instruments (**FDI**) and invest in securities which may embed leverage or embed a derivative component (e.g. ETNs, exchange traded certificates (**ETCs**), mortgage-backed securities and other asset-backed securities and hybrid securities such as convertible securities and CoCo-Bonds) for investment, efficient portfolio management and hedging. Such FDI include swaps (an instrument that swaps the performance of one asset for another), contracts for difference (a security that returns the difference between the value of an asset at the beginning and the end of the contract), options (securities that give the right to buy or sell another asset), futures (contracts to exchange a predetermined quantity of another asset at a certain price on a certain future date) and forwards (contracts to exchange foreign currencies/debt securities at an agreed date in the future). Commodity exposure may be achieved solely via investment in UCITS eligible structures including, but not limited to ETNs, ETCs, ETFs and FDI based on UCITS eligible commodity indices which meet the requirements of and have, where necessary, been cleared by the Central Bank of Ireland. The Fund may invest substantially all of its assets in deposits with credit institutions (or other ancillary liquid assets) during periods of high market volatility. The Fund aims to promote environmental and/or social characteristics by closely monitoring the ESG performance of issuers in the portfolio, and aiming to achieve a good ESG average rating for the portfolio including in particular in connection with: the governance practices of issuers, predatory lending practices, social factors and control of corruption, pollution prevention and control.

The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.

The Fund may declare dividends on the following approximate dates: 1 January, 1 April, 1 July and 1 October.

Hedging: The Fund's base currency is Euro and the Fund may use currency hedging (the technique of buying or selling currencies to minimise fluctuations in non-Euro currency investments resulting from foreign exchange movements). There is no guarantee that this will be successful.

Intended Retail Investors: The Fund is suitable for all investors seeking to achieve a high level of income and modest capital growth and who are prepared to accept a moderate level of volatility with a medium to long-term investment horizon. The investors must be able to bear the economic risk of the loss of their investment.

Term: The Fund has no maturity date at which the Fund will automatically terminate. The Investment Manager is not entitled to terminate the Fund unilaterally nor can the Fund be automatically terminated. More details on the circumstances whereby the Fund may terminate are detailed in the prospectus of the UCITS (the "Prospectus") under the heading "Termination".

Depositary of the Fund: BNP Paribas Dublin Branch.

The prospectus, the half-yearly reports and annual reports of the Fund can be obtained free of charge in English from your financial advisor or distributor.

Other practical information such as the latest share prices are available free of charge at <https://www.algebris.com/funds/>.

You may switch your shares in the Fund to shares in other sub-funds in which you are eligible to invest. Further information is available from BNP Paribas Fund Administration Services (Ireland) Limited.

Information about these share classes can be obtained from your financial advisor or distributor.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator.

The Fund is subject to the following Risk Factors relating to (without limitation):

- Credit and interest rate
- CoCo-Bonds
- Emerging markets
- Commodity
- Currency
- Derivatives
- Sustainability

This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances

| Recommended Holding Period: 5 Years Investment: 10,000 EUR | | | |
|--|--|-------------------|---|
| Scenarios | | 1 Year | 5 Years (Recommended Holding Period) |
| Minimum There is no minimum guaranteed return. You could lose some or all of your investment. | | | |
| Stress scenario | What you might get back after costs | 6,310 EUR | 6,300 EUR |
| | Average return each year | - 36.95 % | - 8.82 % |
| Unfavourable scenario | What you might get back after costs | 8,700 EUR | 10,380 EUR |
| | Average return each year | - 12.97% | 0.74% |
| Moderate scenario | What you might get back after costs | 10,530 EUR | 12,760 EUR |
| | Average return each year | 5.26% | 5.00% |
| Favourable scenario | What you might get back after costs | 12,650 EUR | 14,490 EUR |
| | Average return each year | 26.51% | 7.70% |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF ALGEBRIS INVESTMENTS (IRELAND) LIMITED IS UNABLE TO PAY OUT?

Although the assets of the Fund are held in safekeeping and segregated from the assets of the Management Company or of the Depositary, in the event of the insolvency of either of those providers, you may suffer a financial loss. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

| Investment: 10,000 EUR Scenarios | If you exit after 1 Year | If you exit after 5 Years (Recommended Holding Period) |
|-------------------------------------|--------------------------|---|
| Total Costs | 181.08 EUR | 1,197.99 EUR |
| Annual Cost Impact (*) | 1.81 % | 1.90 % |

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.90% before costs and 5.00% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

| One-off costs upon entry or exit | | If you exit after 1 Year |
|--|---|--------------------------|
| Entry costs | We do not charge an entry fee for this product. | 0 EUR |
| Exit costs | We do not charge an exit fee for this product. | 0 EUR |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 0.88% of the value of your investment per year. This is an estimate based on actual costs over the last year. | 88.34 EUR |
| Transaction costs | 0.39% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 39.62 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | A performance fee may be charged of up to 10% of any returns the Fund achieves at the end of the Performance Period over the Adjusted High Water Mark. The actual amount will vary depending on how well your investment performs. The estimated performance fee for this share class is 0.52%. The aggregated cost estimation across includes the average over the last 5 years. | 53.12 EUR |

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended Holding Period: 5 Years

The Fund is designed to deliver capital appreciation over a medium to long-term investment horizon with a medium-low level of risk. You can redeem your shares as described in the "What is this Product" section with no penalty.

HOW CAN I COMPLAIN?
