## WHAT IS THIS PRODUCT?

**Type:** Algebris Strategic Credit Fund (the "Fund") is a sub-fund of Algebris UCITS Funds PLC (the "UCITS"), a public limited company incorporated with limited liability in Ireland with registered number 509801 and established as an umbrella fund with segregated liability between sub-funds and as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. The Manager is the investment manager of the Fund. Segregated liability between sub-funds means that the assets and liabilities of each sub-fund are segregated by Irish law. The prospectus and periodic reports are prepared for Algebris UCITS Funds plc at umbrella level.

**Objectives:** The Fund has a sustainable investment objective within the meaning of Article 9 of the Sustainable Finance Disclosure Regulation (SFDR) to make a positive impact on worldwide environmental sustainability and social standards which is achieved by investing in debt securities of global listed companies that have a positive contribution to the UN Sustainable Development Goals (SDGs), low environmental footprints and operate within environmental boundaries that support sustainable planetary thriving. The Fund seeks to generate an attractive level of income and positive risk-adjusted returns in the medium-to-long term.

The Fund primarily invests in fixed and variable, corporate and/or government debt securities (e.g. corporate bonds), contingent convertible bonds (CCBs), hybrid securities including Tier 1, upper and lower Tier 2 securities, which are forms of bank capital, and trust preferred securities, preference shares, convertible securities, other subordinated debt, as well as exchange traded notes, exchange traded funds, and deposits. To the extent permitted under SFDR, the Fund may invest substantially in deposits with credit institutions during periods of high market volatility. However, such investments will be solely for the purpose of liquidity and hedging considered necessary by the Manager and in the best interests of investors. The Fund does not intend to invest directly in ordinary equity securities, however, it may acquire and hold ordinary equity securities in the event that such ordinary equity securities are acquired by way of conversion from another security held by the Fund. For the avoidance of doubt, the Fund shall not be required to sell or otherwise dispose of any ordinary equity securities so acquired, however, the acquisition of any convertible securities or CCBs will be subject to the applicable limits detailed in the supplement for the Fund (the **Supplement**).

In seeking to achieve its investment objective, the Fund may invest up to 10% of its net assets in offshore Chinese bonds that are denominated in USD. With the exception of China and subject to the investment restrictions set out in the Supplement and the prospectus of the Company (the "**Prospectus**"), there are no limits on the geographic or market sector to which the Fund may have exposure. For the avoidance of any doubt, the investments of the Fund must be in "sustainable investments" as defined in Article 2 (17) of SFDR (with the exception of investments made for the purpose of hedging and liquidity). The Fund invests based on the following environmental, social and governance (**ESG**) themes: (1) clean energy and energy efficiency (relating to SDG 7), (2) clean water tech and sanitation (relating to SDG 6), (3) protection of biodiversity and marine resources (relating to SDGs 14 and 15), (4) sustainable agriculture and food (relating to SDG 2), (5) waste disposal and circular economy (relating to SDG 12), (6) health and wellbeing (relating to SDG 3), (7) skills and education and industry (relating to SDG 4) and (8) innovation and digitalization (relating to SDGs 9 and 11) (the **ESG Themes**). Investors should note that whilst the Fund aims to invest in companies contributing to one or more ESG Themes, investee companies may still be eligible for the Fund's portfolio despite being outside of the ESG Themes, provided the investment is a "sustainable investment" as defined in Article 2 (17) of SFDR, such as financial institutions. The Fund applies the following criteria to its investment process: strict ESG exclusion policies (e.g., predatory lending, tobacco, controversial weapons sectors, climate related exclusions), monitoring of ESG controversies, best-in-class screening, positive screening for environmental and social impact (ESG themes-based investments), lowering environmental footprint and active ESG engagement and voting. Specific criteria is also applied to financial institutions which are detailed in the Supplement. The Fund may also enter into financial derivative instruments and securities which may embed a derivative component (e.g. hybrid securities, convertible securities and CCBs) for investment, efficient portfolio management and hedging purposes including swaps, options, futures and forward contracts.

You can buy or sell shares daily (but not on weekends or bank holidays in the UK or Ireland). For more information please refer to the section entitled "Dealings in the Fund" in the Supplement.

The Fund is actively managed without reference to any benchmark meaning that the Manager has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.

Any income that may arise in the Fund will be reinvested in the Fund.

**Hedging:** The Fund's base currency is Euro and the Fund may use currency hedging (the technique of buying or selling currencies to minimise fluctuations in non-Euro currency investments resulting from foreign exchange movements). There is no guarantee that this will be successful in eliminating all currency risk.

**Intended Retail Investor:** The Fund is an actively managed investment product suitable for investors who have sustainable investment as an objective and seek an attractive level of income and positive risk-adjusted returns, while being prepared to accept a moderate level of volatility with a medium to long-term investment horizon.

**Term:** The Fund has no maturity date at which the Fund will automatically terminate. The Manager is not entitled to terminate the Fund unilaterally nor can the Fund be automatically terminated. More details on the circumstances whereby the Fund may terminate are detailed in the prospectus of the UCITS (the "Prospectus") under the heading "Termination".

**Depository of the Fund:** BNP Paribas Dublin Branch.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

**The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.**

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the fund to pay you.

**Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator.**

The Fund is subject to the following Risk Factors relating to (without limitation):

- Credit and interest rate risk
- CCB related risks
- Derivatives risk
- ESG screening risk
- Currency risk

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

We have classified this product as 2 out of 7, which is a low risk class.
