The Fund seeks to generate positive risk-adjusted returns in the long-term and is actively managed without reference to any benchmark.

Any income that may arise in the Fund will be reinvested in the Fund.

Hedging: The Fund's base currency is Euro and the Fund may use currency hedging (the technique of buying or selling currencies to minimise fluctuations in non-Euro currency investments resulting from foreign exchange movements). There is no guarantee that this will be successful in eliminating all currency risk.

Intended Retail Investors: The Fund is an actively managed investment product suitable for all investors who have sustainable investment as an objective and seek capital growth, while being prepared to accept a moderate to high level of volatility with a long-term investment horizon. The investors must be able to bear the economic risk of the loss of their investment.
