Algebris UCITS Funds PLC

Class Zd EUR (ISIN IE00BYR8FM19) Algebris Financial Credit Fund, a sub-fund of Algebris UCITS Funds PLC

The Fund is externally managed by Algebris Investments (Ireland) Limited (the Manager), a member of the Algebris group

OBJECTIVES AND INVESTMENT POLICY

The Algebris Financial Credit Fund (the **Fund**) aims to achieve a high level of income and modest capital appreciation.

The Fund intends to invest in the financial sector globally, primarily in debt securities with fixed and variable interest rates, which may be rated investment grade or below investment grade.

The Fund is actively managed without reference to any benchmark meaning that Algebris (UK) Limited (the **Investment Manager**) has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.

The Fund may also invest in convertible securities (bonds that can be converted into shares), hybrid securities (instruments that combine the characteristics of bonds and shares), preference shares, contingent convertible instruments (**CCBs**) (bonds that can be converted into shares or their principal amount may be written down if a pre-specified trigger event occurs). Tier 1 and upper and lower Tier 2 securities (which are forms of bank capital), trust preferred securities (a type of hybrid security), subordinated debt, exchange traded notes and exchange traded funds (securities that track an index, a commodity or a basket of assets like an index fund, but trades like a stock on an exchange). During times of high levels of market movements (volatility) the Fund may invest substantially in deposits. The Fund does not intend to invest directly in ordinary shares, however the Fund may acquire and hold ordinary shares where such ordinary shares are acquired by way of conversion from another security held by the Fund.

The Fund may also enter into financial derivative instruments (**FDI**) for hedging and efficient portfolio management purposes and not for speculative or investment purposes, including options (securities that give the right to buy or sell another asset), swaps (an instrument that swaps the performance of one asset for another), forward contracts (contracts to exchange foreign currencies at an agreed date in the future)

and futures (contracts to exchange a predetermined quantity of another asset at a certain price on a certain future date). In addition, certain financial instruments such as convertible securities and CCBs may have embedded leverage or embed a derivative component. The Fund may invest in these securities for speculative or investment purposes.

The Fund's base currency is Euro and the Fund may use currency hedging (the technique of buying or selling currencies to minimise fluctuations in non-Euro currency investments resulting from foreign exchange movements). There is no guarantee that this will be successful in eliminating all currency risk.

Investment in the Fund may be suitable for investors with a medium to long-term investment horizon. For full investment objectives and policy details, please refer to the section entitled "Investment Objectives and Policy" in the supplement for the Fund (the **Supplement**).

The Fund promotes environmental and/or social characteristics (**E/S**) and does not have sustainable investment as its investment objective. More information on how the Fund promotes E/S characteristics and on the Manager/Investment Manager and Fund's approach to environmental, social and governance (**ESG**) (as related to this Fund) can be found under the section titled "The Sustainable Finance Disclosure Regulation" and Schedule II of the Fund's Supplement.

Dealing

You can buy or sell shares daily (but not on weekends or bank holidays in the UK or Ireland). For more information please refer to the section entitled "Dealings in the Fund" in the Supplement.

Distribution Policy

The Fund may declare dividends on the following approximate dates: 1 January, 1 April, 1 July and 1 October.

RISK AND REWARD PROFILE

The synthetic indicator shown above is calculated using historical data from a representative model for the last five years and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean that a share class is risk free and your initial investment is not guaranteed.

The Fund is in category 5 because of the moderate to high range and frequency of price movements of the underlying investments the Fund invests in.

Risk Factors

The Fund may be subject to risks which are not included in the calculation of the risk-reward indicator associated with the following:

- As the Fund invests in debt securities (e.g. bonds) it is subject to credit risk (the risk of a bond issuer failing to pay) and interest rate risk (the risk of changes in interest rates).
- The Fund may also invest in CCBs, these bonds have additional risks such as the risk that following certain trigger events, including an issuer's capital ratio falling below a particular level, the bond may be converted

into the issuer's equity or its principal amount may be written down, resulting in losses for the Fund.

- The Fund can invest in FDI. These instruments have additional risks such as legal risk or liquidity risk (the inability to sell the contract due to lack of buyers in the market). These risks can have adverse impacts on the overall value of the Fund.
- Sustainability risks may adversely affect the returns of the Fund. A sustainability risk is an ESG event that if it occurs, could cause an actual or potential material negative impact on the value of the Fund's investment. The Fund's investments are also exposed to the risk of losses resulting from reputational damage an issuer may face in connection with an ESG event.
- The Fund can invest in emerging markets. Such markets carry additional risks such as political instability, weaker auditing and financial reporting standards and less government supervision and regulation.
- The Fund's investments may be in currencies other than Euros. The impact of this is that as the value of a currency rises or falls it can have a positive or negative impact on the value of the Fund's investments.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Supplement and Algebris UCITS Funds plc (the **Company**) prospectus (the **Prospectus**).

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:	
Entry charge	0.00%
Exit charge	0.00%
These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.	
Charges taken from the Fund over a year:	
Ongoing charges	0.88%
Charges taken from the Fund under specific conditions:	
Performance Fee	0.00%

The Ongoing Charges figure is based on expenses for the last 12 months to the period ending 31 December 2024. Ongoing Charges do not include Fund transaction costs and may vary from year to year.

You may be charged a dilution adjustment of up to 1.5% of the value of the Shares (representing the cost of buying or selling the underlying investments) on entry to or exit from the Fund. This adjustment is paid to the Fund to protect existing investors from bearing transaction costs caused by other investors buying or selling their shares. The average dilution adjustment charged in the past financial year was 0.04%.

The Fund's investment manager is not entitled to a performance fee in respect of Class Zd shares of the Fund.

For more information please refer to the sections entitled "Fees and Expenses" in the Prospectus and the Supplement.
